

ELECTRICAL & COMPUTER ENGINEERING

The following courses will be offered this summer:

ECEN 214: Electrical Circuit Theory

ECEN 215: Principles of Electrical Engineering

ECEN 248: Introduction to Digital Systems Design

ECEN 314: Signals & Systems

ECEN 322: Electric & Magnetic Field

ECEN 325: Electronics

ECEN 350: Computer Architecture & Design

ECEN 370: Electronic Properties of Materials

ECEN 405: Electrical Design Lab

ECEN 420: Linear Control Systems

Summer pre-registration starts March 25, 2009
